

CAGES FOR DUST COLLECTOR FILTER BAGS

mmp's filter cages are essential components for enhancing the structural integrity and performance of the filtration system. Crafted with precision and durability in mind, these cages are designed to meet the specific needs of your air filtration setups.

Versatile Material Choices

Explore the versatility of our support cages with material options such as Mild Steel (MS), Stainless Steel (SS), and Galvanized Iron (GI). Ensure compatibility with various environmental conditions, providing robust support for your filtration system.

Customized Structure

The number of rods and rings can be customized to meet the exact specifications of your filtration setup. This customization ensures optimal support and stability, adapting to your system's unique requirements.

Optimal Wire Thickness

Experience the strength and durability of our support cages with wire thicknesses ranging from 3mm to 4mm. This feature ensures the structural integrity required to withstand the demands of diverse filtration applications.

Diverse Venturi Materials

The Venturi, a critical component, is available in Stainless Steel (SS), Galvanized Iron (GI), Cast Iron, and Aluminium. Choose the material that aligns best with your filtration needs, enhancing the efficiency and performance of your system.

Customized Length

Customize the length of our support cages to seamlessly integrate into your filtration system. This bespoke approach ensures a perfect fit, contributing to the overall efficiency and longevity of your filtration setup.

USE OF PRODUCT IN VARIOUS INDUSTRIES

PETROLEUM

CHEMICAL

PHARMACEUTICALS

FOOD & DAIRY

METALLURGY

CEMENT

ENERGY

CAGES FOR DUST COLLECTOR FILTER BAGS

MOC	MS SS GI
No. of Rods	As required by the customer
No. of Rings	As required by the customer
Thickness of wire	3mm to 4mm
Venturi MOC	SS, GI, Cast Iron, Aluminium
Length	As required by the customer
