

CONVENTIONAL FILTER BAGS

Filtration Excellence with Conventional Filter Bags

mmp's Non-Woven and Woven Dust Collector Bags are meticulously designed for exceptional performance in both water and air filtration applications. These bags, equipped with cutting-edge features, provide unmatched versatility and reliability for your filtration systems.

Fabric Versatility

Discover a wide range of fabric options for our Dust Collector Bags, including Polyester, Nomex, Acrylic, PPS, P84, Glass Fibre, Polypropylene, and PTFE. This diverse selection ensures tailored solutions for various filtration needs, meeting the highest industry standards.

Customizable Coating Options

Choose from Oil and water repellent, Antistatic, Oil and water repellent + antistatic, PTFE coating, and PTFE membrane lamination. These coating options provide flexible adaptation to specific environmental challenges, ensuring efficient dust particle capture.

Fitment and Joint Flexibility

Opt for Snap Band, Collar, or Rope-type fitment options, coupled with Stitching or Heat-sealing joints. This versatility allows easy integration into different dust collector systems, ensuring robust construction and reliable performance.

Precise ID & OD Customization

Tailor the Inner Diameter (ID) and Outer Diameter (OD) according to customer specifications. This precision ensures a perfect fit and optimal filtration performance, enhancing the overall efficiency of your dust collection system.

Tailored Length

Our Dust Collector Bags are available in lengths customized to your exact specifications. This bespoke approach seamlessly fits your filtration setup, providing consistent and efficient dust particle containment. Tailored lengths ensure precise fitment for enhanced performance.

CONVENTIONAL FILTER BAGS

Technical Name	Non Woven Dust Collector bags
	Woven Dust Collector bags
Fabric	Polyester, Meta-aramid (Nomex), Acrylic homopolymer, Acrylic co-polymer, Polyphenylene Sulphide (PPS), Polyimide (P84), Glass Fibre, Polypropylene, PTFE
Coating on Fabric	Oil and water repellent, Antistatic, Oil and water repellent + antistatic PTFE coating, PTFE membrane lamination
Fitment	Snap Band/Collar/Rope type
Joint	Stitching/Heat Sealing
ID & OD	As required by the customer
Length	As required by the customer
