

PLEATED FILTER BAGS

Pleated Filter Bags for Water and Air Filtration

Pleated Filter Bags are designed for optimal performance in water and air filtration applications. Crafted with industry expertise, these filter bags offer a range of configurations to meet your specific requirements.

Fabric Versatility

Choose from a variety of materials for your Pleated Filter Bags, including Spun bonded options like Polyester, Polypropylene, Aramid, PPS, and PTFE, as well as Non-woven options such as Polyester, Aramid, PPS, and PTFE. This versatility ensures tailored solutions for diverse filtration applications.

Customizable Coating Selection

Tailor your filtration properties with a range of coating options, including PTFE membrane lamination, oil and water repellent, antistatic, oil and water-repellent + antistatic, and PTFE coating. Adapt to specific environmental challenges to achieve optimal performance.

Flexible Pleat Depths

Enhance filtration efficiency by choosing from standard pleat depths of 16mm & 25mm or specify custom depth requirements. The flexibility in pleat depths ensures consistent and reliable performance in various filtration applications.

Durable Construction

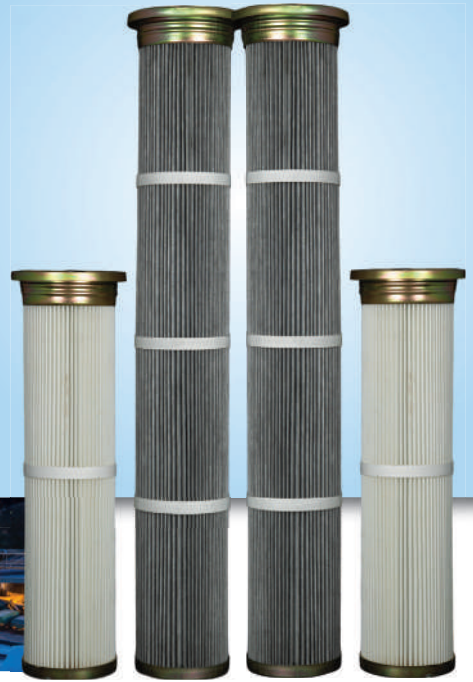

Constructed with top-quality materials such as Mild Steel, Galvanized Iron, Stainless Steel, and Polyurethane for top and bottom components, ensuring durability and compatibility with various filtration systems.

Fitment Options for Cell Plate Diameter

Available for cell plate diameters of 130mm and 160mm, with the flexibility to meet customer-specific sizing needs. This ensures seamless integration into your existing filtration setup.

Tailored Length

Our Pleated Filter Bags are available in lengths customized to your exact specifications, providing a perfect fit for your filtration system. This tailored approach ensures optimal filtration performance, meeting the unique requirements of your application.

USE OF PRODUCT IN VARIOUS INDUSTRIES

PETROLEUM

CHEMICAL

PHARMACEUTICALS

FOOD & DAIRY

METALLURGY

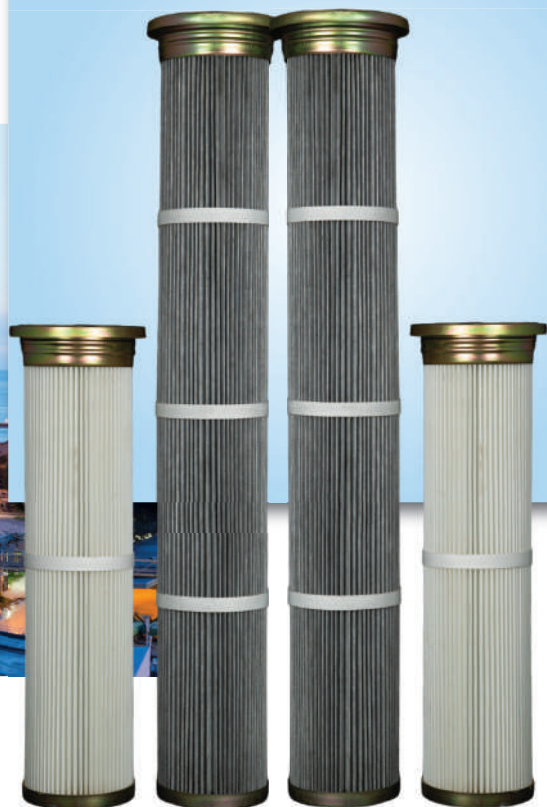

CEMENT

ENERGY

PLEATED FILTER BAGS

Technical Name	Pleated Filter Bags
Fabric	Spun bonded: Polyester, Polypropylene, Aramid, PPS, PTFE Non woven: Polyester, Aramid, PPS, PTFE Coating
Coating	PTFE membrane lamination, Oil and Water repellent, Antistatic, Oil and water repellent + antistatic, PTFE coating
Pleats	16mm & 25mm (standard pleat depth) As required by the customer
Top & Bottom	Mild Steel, Galvanized Iron, Stainless steel, Polyurethane
Fitment suitable for cell plate diameter	130mm, 160mm, As required by the customer
Length	As required by customer
